# More Demanding Environment for Government

## Rising Expectations

- Citizens demand accountability and transparency
- Citizens need on-demand services

## Innovation Everywhere

- Innovation comes from anyone, anywhere at any time
- Silos break among agencies, citizens, and private sector

## Velocity and Volatility

- Economic climate is volatile
- Pressures grow to achieve mandates and increase workforce speed and agility

## Financial Pressures

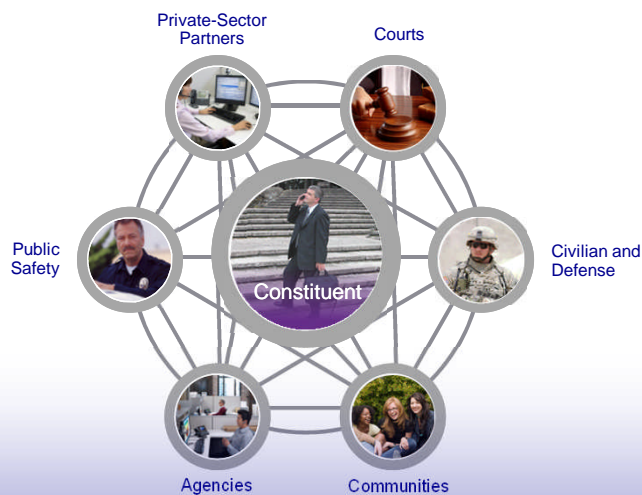

- Control costs even further
- Stimulate sustainable economic growth

# Governing in a New World

Engaging Citizens, Agencies, Employees, Private-Sector Partners, and Key Constituents in New Ways Through Process, Culture, and Technology

## What if You Could...?

Personalize services for citizens **and** Reduce costs

Improve operational effectiveness **and** Achieve your mission

Provide open access to information **and** Secure strategic data

## Collaboration Is Equal Parts Process, Culture, and Technology

**“Collaboration isn’t just about technology.  
We’re using collaboration to change the way we work.”**  
- John Chambers, CEO of Cisco

## Essential Elements of Collaboration

	THEN	NOW
<b>PEOPLE</b>	Inside my organization	Dispersed, mobile teams 
<b>COMMUNITIES</b>	Hierarchy	Self-organizing 
<b>CONTENT</b>	Documents, Text	Video, voice 
<b>CONTEXT</b>	Search	Information finds you 
<b>SECURITY</b>	Inside firewall, walled off	Inclusive, selective, policy-based 
<b>DEPLOYMENT</b>	On premise	Cloud, hybrid

## Begin the Journey to Highly Utilized Collaboration Solutions with Services from Cisco and Our Partners

## Closing Thoughts

- Use collaboration as workforce and operational efficiency tool
- Anticipate video, mobility, social, and cloud
- Develop collaboration strategy using architectural approach
- Collaboration is a journey, not a project
